Corporate Safety Management	Hazard Identification Risk Management (HIRM)	Edition III Rev. 04/2025 18th December 2025

1. Purpose

To manage the process of HIRM in PIACL within the existing process architecture.

2. Responsibility

- 1.1. Chief of Safety
- 1.2. Deputy Chief of Flight Safety (DCFS)
- 1.3. Deputy General Manager SMS (DGM SMS)
- 1.4. Deputy General Manager HSE (DGM HSE)
- 1.5. Deputy Chief Engineer Technical Safety (DCE Tech Safety)
- 1.6. Manager Flight Safety
- 1.7. Manager SMS
- 1.8. Delegated staff Members of Corporate Safety (See Table 7)

Note: Chief of Safety is synonymous to Head of Safety and in absence the Chief Pilot Safety shall be construed as Head of Safety for all matters mentioned in this document.

3. Applicability

These work instructions clarify the actions required by Corporate Safety staff to carry out risk management steps within the existing process infrastructure for improvement in quality of safety reports/issues processing and to reduce the time required for closures. This shall be applicable to all occurrence/hazards identified within the system.

4. Scope

All PIACL identified Hazards and Events (occurrences).

5. Existing Process Architecture / Flow and Reinforcement

- 5.1. As described in PIACL SMS Manual, the information received by Corporate Safety is initially evaluated/ processed for Event Risk Classification (ERC), investigation, hazard identification and recommendations are produced for corrective & preventive measures in coordination with SAGs. The recommendations are followed up to assure implementation.
- 5.2. This SOP is devised to reinforce the primary process of continuous communication with all SAGs / Departments for safety report / issues processing and follow-up with these Departments to implement safety controls.

6. General Instructions

- 6.1 After receipt of any occurrence report / Hazard information, process of filing MOR with PCAA, Event Risk Classification procedure, investigation, safety recommendations and its standard timeline for completion (as per SOP), the delegated staff members of Corporate Safety, who are made responsible for a certain source of hazard /occurrence information or individual cases (if assigned) shall follow up with relevant departments / SAGs for completion of the process of HIRM and acceptance by Corporate Safety.
- 6.2 Information that pertains to flight operations of aircraft such as destabilized approach, go-around etc from other sources than FDM will be provided to Flight Data Monitoring (FDM) through DCFS/Manager Flight Safety and/or DGM SMS for correlation of data through Flight Data Analysis (FDA).
- 6.3 Delegated personnel of Corporate Safety shall communicate with relevant departmental representatives for HIRM process of hazard reports / occurrence reports in order to assist for

 PAKISTAN International Airlines Great People to Fly With	STANDARD OPERATING PROCEDURE	CS/SOP-HIRM/07 Page 4 of 9
Corporate Safety Management	Hazard Identification Risk Management (HIRM)	Edition III Rev. 04/2025 18th December 2025

completion of the process. The departmental representatives are generally the SAG coordinating staff or DQCs.

- 6.4 Delegated Safety personnel will carry out follow-up through regular channels of communication as deemed necessary and effective for each case / department in the circumstances.
- 6.5 Unique tracing ID shall be utilized for follow-ups and progress monitoring of each case with all departments /SAGs.
- 6.6 In case of issues with completion of process, Corporate Safety personnel will inform their respective DGMs (DCFS, DGM SMS, DGM HSE), who would further raise the level of communication to Chief of Safety, if required. DCFS will coordinate with DCE (Technical Safety) for support with regards to technical investigations. DCE Technical Safety is responsible for all Engineering related case processing and their completion and DGM HSE is responsible for all Health, Safety & Environment (HSE) related case processing and their completion. The Dy. General Manager(s) shall contact relevant SAGs or departmental Managers, reinforcing on the process completion.
- 6.7 In case of delay in implementation of the Safety Recommendations by the concerned Departments, reminders will be sent and "OPEN" status will be displayed on the Safety Dashboard which will be reviewed by the Accountable Executive during the Briefing Sessions.
- 6.8 The status of each safety report will be updated by the delegated staff member as soon as an update is finalized in SIMS, ASR or INV etc.
- 6.9 If cases are processed but require monitoring or review after a period of time or cycles of operation, same delegated safety personnel shall follow up.
- 6.10 In-case of absence from work / on leave, re-delegation of the task (report) shall be carried out by nominated DGM.

7. Staff / delegates responsible for process support

S. No.	Name	Designation	Employee Number	Reporting To
1.	Capt. Umar Khalid	Dy. Chief Flight Safety	62690	Chief of Safety
2.	F/O Shaheryar Mehmood Khan	Manager SMS	68019	DGM SMS
3.	Mr. Wasim Ahmed Khan	Manager HSE	59418	DGM SMS
4.	Mr. Imran Aziz	Manager Flight Safety (Ground Operations)	59094	DCFS
5.	Ms. Salma Naureen	Assistant Manager HSE	63296	DGM HSE
6.	Ms. Faiza Turab Baloch	Assistant Manager Flight Safety	56609	DCFS
7.	Ms. Moona Moiz	Flight Safety Officer	64846	DGM HSE
8.	Mr. Muhammad Naveed	Flight Safety Officer	S-1138	DCFS

Note: DCE Technical Safety is responsible to process safety reports of Engineering Department in coordination with DCFS, and he shall be reporting to Chief of Safety

Note: DGM HSE is responsible to process HSE related reports in coordination with DCFS and/or DGM SMS, and he shall be reporting to Chief of Safety

8. Responsibility of entering and follow-up of Dashboard entries /reports

Name	Designation	Report Source	Entry in dashboard	Follow up
Mr. Wasim Ahmed Khan	Assistant Manager HSE	SIMS Reports (SMS)	✓	✓
Mr. Imran Aziz	Manager Flight Safety (Ground Operations)	Aircraft Ramp Inspections (ARI)	✓	✓
Ms. Salma Naureen	Assistant Manager HSE	ASR / DBR / SIMS Reports (Food related)	✓	✓
Ms. Faiza Turab Baloch	Assistant Manager Flight Safety	MOR / ASR (Safety)	✓	✓
Ms. Moona Moiz	Flight Safety Officer (1)	SIMS Reports / DBR /OTR (HSE)	✓	✓
Mr. Muhammad Naveed	Flight Safety Officer (2)	INV / OTR / DBR (Safety)	✓	✓

Note 1: In the absence, Assistant Manager HSE and Flight Safety Officer (1) will be the stand-by vice-versa and Assistant Manager Flight Safety will act as a stand-by for Flight Safety Officer (2) and vice versa.

Note 2: Only Chief of Safety, DCFS, & DGM SMS are authorized to close any report.

Note 3: DCE Technical Safety is authorized to close engineering related reports.

Note 4: DGM HSE is authorized to close HSE related reports.

9. Reference numbers and Retention of reports / files

9.1 All reports must have unique reference numbers and all these reference numbers shall be marked by following Officers in specified form:

Name	Designation	Type of Reports
Mr. Imran Aziz	Manager Flight Safety (Ground Operations)	ARI
Ms. Faiza Turab Baloch	Assistant Manager Flight Safety	MOR / ASR
Mr. Muhammad Naveed	Flight Safety Officer	INV / DBR / OTR

9.2 All hard copies of original record files shall be retained by the Officers (Table No. 8) in their respective Offices, and they are custodian of the record. *Refer Annex A for management of report pertaining to Engineering and Maintenance.*

10. Updating Progress Percentage in SMS Dashboard

10.1 Progress will be updated on the SMS Dashboard by the nominated Safety Staff / Officer as per table below:

Progress %	Description
10%	Initial Correspondence
20% to 30%	Event Risk Classification (ERC) of report
30% to 40%	Response Received
40% to 50%	Investigation Received / completed
50% to 60%	Evidence Received
60% to 90%	Evidence Accepted
90% to 99%	Under Review
100%	Report closure

Corporate Safety Management	Hazard Identification Risk Management (HIRM)	Edition III Rev. 04/2025 18th December 2025

Note: Root Cause to be selected from the drop-down menu after Hazard Identification and Initial Risk assessment is completed. In case applicable Root Cause is not available in the drop-down menu, DGM SMS to be notified for addition.

11. Marking of a report, received from “one source of reporting”

In case of receiving a report from “one” source of reporting, but having two or more issues shall be marked as follows:

Example:

Case	Reference Number	Concern Department
REPORT 1	ASR-11/21-001 (I)	Action required from ACS
REPORT 2	ASR-11/21-001 (II)	Action required from ACS
REPORT 3	ASR-11/21-001 (III)	Action required from Food Services

12. Master Entry of a Report for Correspondence

Following shall be the sequence of marking a report as “Master” in the dashboard in case of same report received from different hazard reporting sources:

Type	Code
Investigation	INV
Mandatory Occurrence Report	MOR
Air Safety Report	ASR
De-Brief Report	DBR
Other Report	OTR
Aircraft Ramp Inspection	*ARI

- i. Aircraft Ramp Inspection finding CAT 2 (Significant) & CAT 3 (Major)*
- ii. CAA Ramp Inspection finding CAT Significant & CAT Major

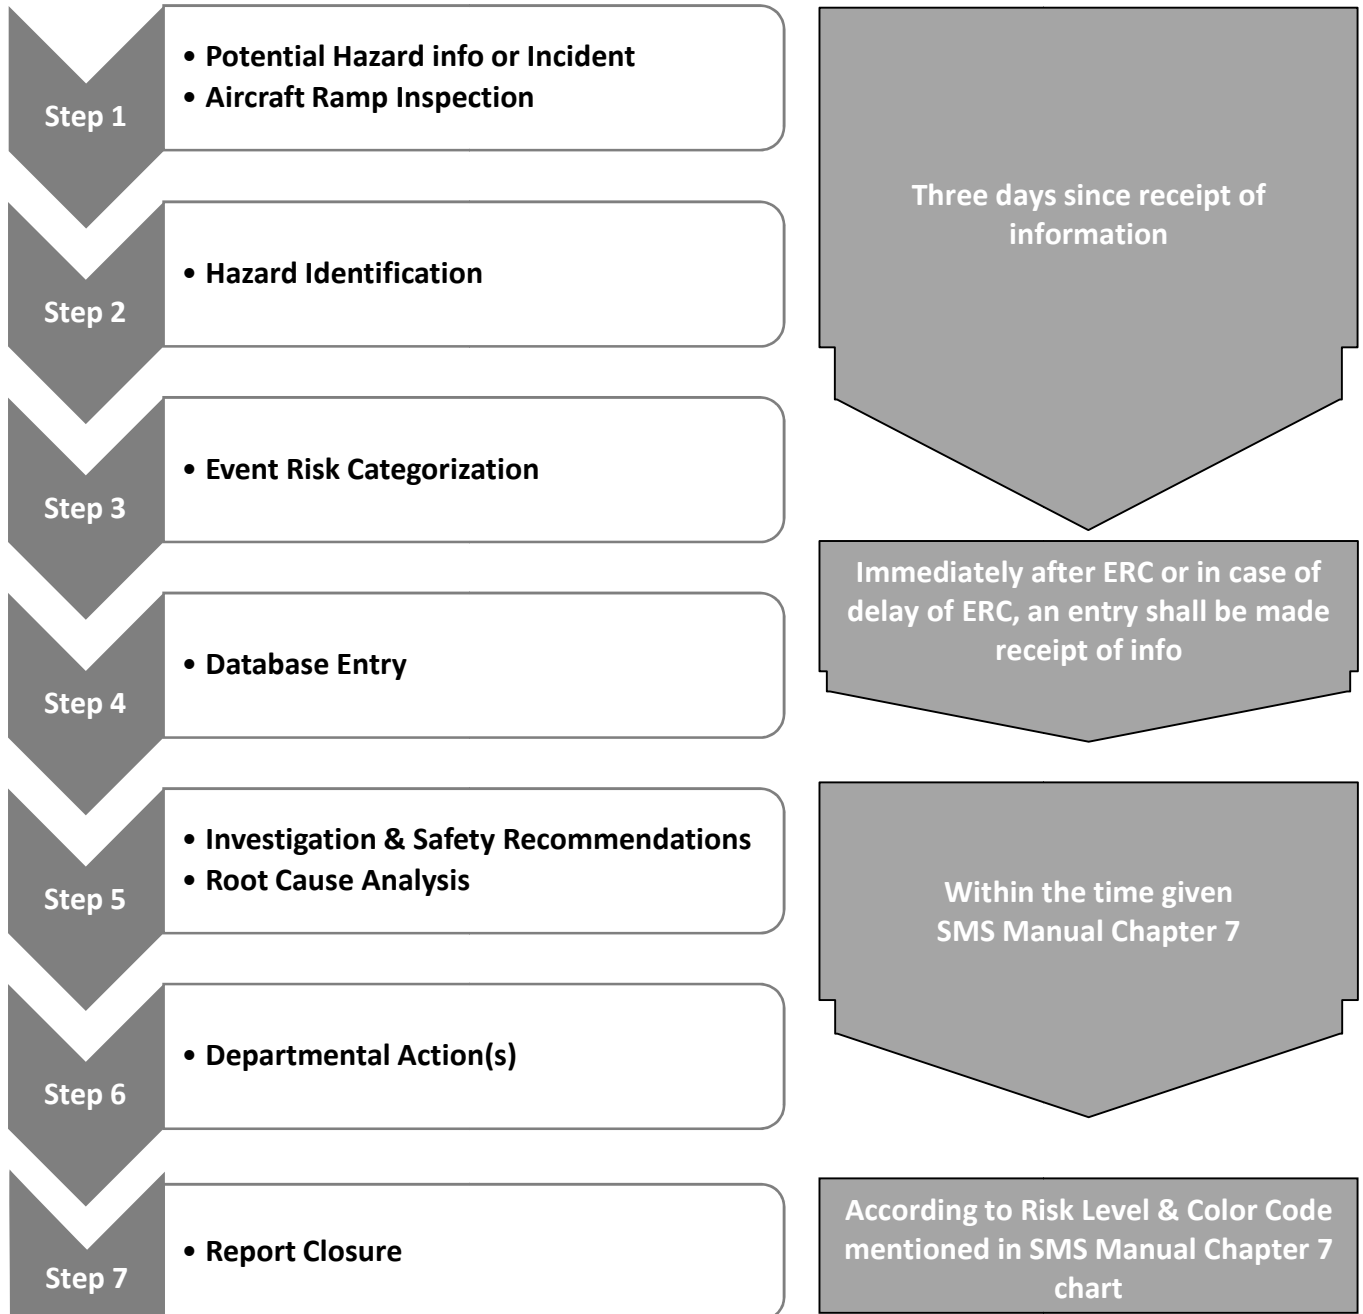

13. SMS Dashboard Correspondence /Assistance

IT Related issues of dashboard and coordination	Mr. Kamran, DCE FDM
Checking of dashboard entries need correction / update	Mr. Wasim Khan, AM HSE Ms. Moona Moiz, Flight Safety Officer

Note: Marking of master entry of SPIs must be communicated to Mr. Imran Aziz, Manager Flight Safety (Ground Operations) so that SPIs should not be affected.

Appendix B

Steps to Enter data in SMS dashboard

1.	Document/Ref. No.	→	According to their assigned Report.
2.	Source	→	On click this will show all types off reports option select the desired.
3.	Marked as	→	This box gives option to select SMS or HSE.
4.	Date	→	Select date of occurrence.
5.	Station	→	This box gives, to select three letter IATA code (i.e. KHI for Karachi).
6.	Concerned Department	→	This box indicates that this report is connected with department.
7.	Relevant Departments	→	This box gives selection of multiple departments connected with this case for correspondence as well as different queries.
8.	Severity Level	→	This box gives two options to select any one "Potential Risk /Occurrence" .
9.	Category	→	This box gives number of selection options, can select one which is appropriate
10.	Initial Risk	→	This box gives, to enter Risk Number, after evaluation of initial report.
11.	Flight Phase	→	This box gives, to select phase of flight. Can select one which is appropriate.
12.	A/C Reg. No	→	This box mentions aircraft registration "AP-BGJ" or "AP-BGY" .
13.	Brief Description	→	As mentioned in caption of the box, this is for Brief Description.
14.	Root Cause	→	This box Initially marked "to be notified" till the Investigation/processing is complete.
15.	Open at	→	Currently report is lying for further action. Department title for location of report pending at.
16.	Expected Response Date	→	As per SMSM Ch 07 Pg #07.
17.	Attachment Type:	→	PDF, JPG or PNG: Evidence document to support report actions.
18.	Remedial Action	→	This box gives different options to select as per requirement.
19.	Departments Assigned Actions	→	This box gives selection to different departments.
20.	Remedial Action Type:	→	This box gives, to select different corrective action options.
21.	Final Risk	→	After mitigation & completion of report, Final Risk is entered in this field.
22.	Report Status	→	This box gives, to select Open/Close option.

Annex 'A'

Corporate Safety Management

Annex 'A'
Date: 27-Oct-2023

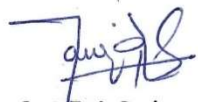

HIRM SOP

ENGINEERING FILES (INVESTIGATION, MOR, ASR, DBR, & OTR):

- Deputy Chief Engineer Tech Safety shall inform PKSAFE to update files through email.
- PKSAFE shall update as advised.
- Files shall be in the custody of the respective Safety Officers as per HRIM SOP.
- Custody of closed files shall remain with the Safety Officers.

DASHBOARD UPDATE:

- Initial entry shall be made by respective officer, including marking of same/similar report and assigning master files status.
- Further progress update shall be done by Deputy Chief Engineer Tech Safety. Progress on SMS Dashboard to be updated with respect to queries sent to Engineering as well and responses received. In case of elaborated and long response, email reference to be mentioned.
- Once Report is closed SMS Dashboard will be updated by Deputy Chief Engineer Tech Safety including RCA, Remedial Actions etc.
